

[FSW Test Execution Summary Template]

[Complete a test execution summary for each test conducted.]

Save this document as a file with the name *ProcedureName_Summary_Vn.doc*, where:

- *ProcedureName* is the exact name of the procedure that was executed, and
- *n* is the version number of the Test Execution Summary for that procedure. Note a separate summary must be written each time the procedure is officially executed.

As you fill out this template, remove this page and the blue tailoring advice text.]

Template Update History

Version	Date	Description	Affected Pages
1.0	02/23/04	Original	All
1.1	12/13/05	Final changes based on 12/06/05 review by Test Team Leads.	All
1.2	01/03/06	Added Verification Method to Requirements Tested section.	2

The template begins on the next page.]

Test Execution Summary

Procedure Name	Run Date	FSW Version	Checksum /CRC	Test Bed	Tester Name	PASS/ FAIL
[Test procedure name]	[Date on which the test was run]	[FSW version #]	[Checksum or CRC]		[Tester name]	[Pass means all requirements passed, else Fail]

Test Objectives
[Specify the objectives of the test. It may be taken directly from the test scenario, or may be modified version of it.]

DCRs validated with this test (if applicable)	
DCR Number	Description
[DCR Number]	[Summarize the description of the DCR being validated]

Requirements Tested (if applicable):			
REQID	Text	Verification Method	Verification Status
[REQID]	[Requirement text]		[Pass or Fail]

Test Results Description
[Describe what happened in the test in enough detail to prove or demonstrate that the test accomplished its objectives. Note any interesting or informative findings. This summary may also include a description of the materials (such as plots, event listings, etc.) that are attached to the test results package.]

Test Report Supporting Data
[List the supporting data used to interpret the test results (e.g., output files generated from the test, plots)]

Test Report Supporting Data	

Electronic location of test report and supporting data [List the location for the test results package and supporting data]	
[pathname]	[filename]

Significant Findings and/or Anomalies
[Describe software problems or anomalies encountered during the test. Describe difficulties with the test bed, simulators, ITOS system, etc. Note any other tests that ought to be run as a result of this test.]

DCRs Submitted
[List the DCR number(s) and title(s) generated for the anomalies found with this test.]

Comments
[Provide any comments.]
